

The Daily Courant.

Saturday, February 15. 1724.

Vienna, February 5.

TWO Days ago, a great Council was held here in Presence of his Imperial Majesty, about the East-India Company of the Austrian Netherlands, and of the Levant Trade. The Palatine Minister had some Days ago an Audience of his Imperial Majesty, in which he assured him, that the Elector his Master is resolved to send fresh and stricter Orders to Heidelberg, to make an End of the Complaints and Grievances of his Protestant Subjects; for which Reason, he desires the Emperor to suspend the Imperial Execution. Count Mercy is arrived here, and has brought with him the Picture of that Man who was 175 Years old, and died lately in the District of Temelwaer, which he has presented to Prince Eugene of Savoy.

Stockholm, Feb. 16. M. Bassewitz, the Holstein Minister, having made pressing Instances about the Payment of the Subsidies due to his Master, has received for Answer, that indeed the same was promised him formerly at his Departure for Germany, but that the Promise was intended with the Proviso, that the Subsidies should be paid to him if he would stay in his own Dominions, or else in this Kingdom. It is reported, that our Court sends it very much that the King of Prussia has proceeded in such a Manner against Count Pöffe our Minister at Berlin, by setting a Guard of a Lieutenant and some Soldiers upon him, and this only for Debt; and 'tis said also that his Majesty has complained of it to several Courts, and even to the Dyet at Ratisbon. 'Tis said that the said Minister, before he left Berlin, gave Notice to his Creditors by Way of Drum, to come and receive their Money of him, upon which he went away incognito, without taking his Audience of Leave.

Copenhagen, Feb. 12. Major General Arnold, our Envoy at the Court of Sweden is to be recalled. The Officer which the King of Prussia has sent hither to pick out of our Soldiers seven of the tallest Men in Exchange for Captain Pectorius, who is to be delivered up to our King, for being accused of having killed the late Count Ractan, could find but three tall Men according to the Measure he brought along with him; in Defiance of which, he desired the Liberty to pick the four tallest out of his Majesty's Subjects; but 'tis said this Request was refused him. The States of Holland have published a Placart, prohibiting the Importation of Oars by Sea, and have laid a Duty of ten Guilders per Head upon all those that are brought thither from foreign Countries by Land; by which 'tis thought they intend to accustom their Subjects to breed Canoe of their own, in Order to prevent the Exportation of their Money. But it is much doubted if this Prohibition will hold, considering the small Trade of Land the Dutch have for the breeding of such a Number of Canoe.

Hambourg, Feb. 15. The Danish Minister having made new Instances for delivering the 10000

Lubeck Marks, which, at the Request of the Duke of Holstein-Renwick, our Magistrate keep in their Hands, being Part of the Revenues of the Duchy of Floren; he was answered, that this Affair has been sent to the Imperial Court, from whence they must wait for an Answer; as also, for an Answer to the Affair concerning a certain Inhabitant of this City, who, whilst he was an Inkeeper here, committed several Misdemeanours, for which he was condemned to the House of Correction for 30 Years; and whom the said Minister Claims now as a Danish Subject, having served formerly as a Trooper in the King's Army. However, the Danish Minister is not at all satisfied with that Answer. 'Tis advised from Rostock, that the Dyet is continued there, and that the States show a great Inclination to come to an Agreement about settling a standing Contribution, which is so far advanced, that the Imperial Commissioners are about sending Circular Letters to collect the same. The Duke of Mecklenbourg continues still at Dantzick, and there is little or no Talk at present of his pretended Submission; on the contrary, it appears that after the Express he received of late from Petersbourg, he enters himself again with Hopes of an effectual Assistance from the East.

Hague, Feb. 12. The Count de Hompesch, General of the Troops of this Republick, is returned hither from his Government of Boissedoc. M. Alexander Hochpiet is appointed to succeed his Father as Consul of their High Mightinesses at Smyrna. The States General have sent to M. Hop, their Envoy Extraordinary at the British Court, the Result of the first Conference had by M. Pestera their Resident, with the Marquis de Prié at Brussels, touching the new Ostend Company, in Order that he may negotiate thereupon with the Ministers of the Court where he resides. It is reported, that Commerce will be re-established in a short Time with the Low Countries belonging to the Emperor, upon the same Foot as in the Year 1712.
